

My name is Giulia Dargenio and I am Milanmun 2019 Secretary General. I am 19 years old and I am attending Civico Liceo Linguistico Alessandro Manzoni in Milan. I joined the MUNclub at my school back in 2015 and I have never regretted that choice. Today, after having attended 10 conferences in five different countries, I am aware of how much Model United Nations has changed my life. Getting informed about the most pressing worldwide issues has helped me to obtain a broader perspective on world issues. In September I will be enrolled in a course of International Politics and Government at Bocconi University, and MUN has played an undoubtedly great role in guiding me to this choice. In the future, I would like to pursue a career in politics or in the diplomatic field. MUN has taught me to appreciate the marvelous cultural and political intricacies and richness of the world. I am extremely grateful for having had this opportunity, and am looking forward to meeting all the delegates attending our conference in order to have fruitful debates, discuss important topics and create friendships.
